EXPERIENCE

Java Developer Intern | Smačnyja Rašeñni, Minsk

September 2022 – August 2023

- Developed and maintained backend services using Java (Spring Boot), focusing on REST API integration.
- Contributed to CRM system development: implemented core business logic, used Hibernate for database access.
- Designed and documented RESTful APIs for frontend integration.
- Achieved 85%+ test coverage using JUnit and Mockito.
- Identified performance issues, fixed bugs, and optimized bottlenecks.
- Deployed and monitored applications on AWS (EC2, S3, Lambda).
- Actively participated in Agile (Scrum) processes and sprint planning.

Angular Developer | ProMan

June 2024 – January 2025

- Built and maintained an internal Angular 13 UI library (Breadcrumb, Tabs, Buttons, Layouts).
- Developed public/private services to support library features.
- Documented the library for scalability and cross-project use.
- Contributed to the KWESTOR project – a financial module for intelligent accounting validation.
- Worked with Angular, RxJS, PrimeNG, DevExtreme, applied BEM methodology for CSS.
- Integrated library components and conducted end-to-end tests using Cypress.
